**Special 510(k) Summary of Safety and Effectiveness:
Line Extension to the Restoration Modular Hip System**

Proprietary Name: Restoration® Modular System

Common Name: Femoral Hip Prosthesis

Proposed Regulatory Class: Class II

Classification: Hip joint metal/ceramic/polymer semi-constrained cemented or nonporous uncemented prosthesis, 21 CFR §888.3353,
Hip joint metal/polymer semi-constrained cemented prosthesis, 21 CFR §888.3350
Hip joint metal/polymer/metal semi-constrained porous-coated uncemented prosthesis, 21 CFR §888.3358
Hip joint metal/polymer constrained cemented or uncemented prosthesis, 21 CFR §888.3310
Hip joint femoral (hemi-hip) metal/polymer cemented or uncemented prosthesis, 21 CFR §888.3390
Hip joint femoral (hemi-hip) metallic cemented or uncemented prosthesis, 21 CFR §888.3360

Device Product Code: 87 LZO, 87 LWJ, 87 JDI, 87 LPH, 87 MEH, 87 KWZ, 87 KKY, and 87 KWL

Email: karen.ariemma@stryker.com

Date Summary Prepared: January 19, 2005

Device Description

The Restoration® Modular Hip System is a modular hip system comprised of different proximal body styles and three distal stem designs, which are affixed with the use of a locking bolt. These individual components are assembled by the surgeon in the operating room or in situ to allow independent sizing of the proximal body and distal stem to better fit the patient. This submission modifies the existing Restoration® Modular Cone Body to create a new style of proximal body called the Restoration® Modular Calcar Body for use with the previously cleared Restoration® Modular Distal Stem components.

Indications for Use

The Restoration® Modular System is intended for primary or revision total hip arthroplasty, as well as in the presence of severe proximal bone loss. These femoral stems are designed to be press fit into the proximal femur. Examples of specific indications for use of the Restoration® Modular System include: non-inflammatory degenerative joint disease including osteoarthritis and avascular necrosis, rheumatoid arthritis, correction of functional deformity, revision procedures where other treatments or devices have failed, and treatment of nonunion, femoral neck and trochanteric fractures of the proximal femur with head involvement that are unmanageable using other techniques.

Substantial Equivalence

The features of the new components are substantially equivalent to the predicate devices based on similarities in intended use, materials and design. Mechanical testing and analysis demonstrates substantial equivalence of the new components to the predicate devices in regards to mechanical strength. In addition, the intended use, material, manufacturing methods, packaging, and sterilization of the predicate and new components are identical.

Re: K050138

Trade/Device Name: Restoration® Modular System

Regulation Number: 21 CFR 888.3353, 21 CFR 888.3350, 21 CFR 888.3358, 21 CFR 888.3310, 21 CFR 888.3390, and 21 CFR 888.3360

Regulation Name: Hip joint metal/ceramic/polymer semi-constrained cemented or nonporous uncemented prosthesis; Hip joint metal/polymer semi-constrained cemented prosthesis; Hip joint metal/polymer/metal semi-constrained porous-coated uncemented prosthesis; Hip joint metal/polymer constrained cemented or uncemented prosthesis; Hip joint femoral (hemi-hip) metal/polymer cemented or uncemented prosthesis; and Hip joint femoral (hemi-hip) metallic cemented or uncemented prosthesis

Regulatory Class: II

Product Code: LZO, MEH, JDI, LPH, KWZ, KWY, KWL, LWJ

Dated: January 19, 2005

Received: January 21, 2005

Dear Ms. Ariemma:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

Page 2 – Ms. Karen Ariemma

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (240) 276-0120. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its Internet address <http://www.fda.gov/cdrh/industry/support/index.html>.

Sincerely yours,
